SUMMARY

Analytical problem-solver who thrives under pressure, adapts quickly, with a strong academic record and hands-on experience in hedge funds and private equity. Motivated to keep growing while delivering value and making an impact.

EDUCATION

BSc (Hons) Banking and International Finance – 1st Class **09/2023 – 06/2026**

Bayes (Cass) Business School, City, University of London

Scholarships: Bayes Academic Excellence Scholar (Top 5% of class)

Key Modules: Econometrics, Portfolio Theory, Machine Learning, Derivatives, Real Estate, Statistics

A-levels: Economics, Computer Science, Mathematics – (A) **09/2021 – 07/2023**

d'Overbroeck's Oxford

EXPERIENCE

Researcher (Unpaid Work Experience) **02/2026 – 05/2026**

Bank of England

- Conducted quantitative research on UK residential property markets using a dataset of 17+ million property transactions, integrating HM Land Registry and EPC data to analyse asset valuation dynamics.
- Applied machine learning techniques, including Gradient Boosting Models, alongside econometric methods such as Propensity Score Matching and Difference-in-Differences to measure the impact of economic shocks on property prices.
- Developed data pipelines and analytical models to assess transition risk and how energy costs and market conditions influence asset valuations, delivering insights through a Bank of England industry research project.

Hedge Funds and PE Intern **06/2025 – 07/2025**

B-Flexion | Kedge Capital

- Built, analysed, and delivered advanced Excel-based liquidity models and financial analyses supporting hedge fund, private equity, and treasury operations across a multi-asset platform.
- Played a key role in the planning and management of a \$2bn liquidity event, which provided broad exposure to the firm's complex financial ecosystem, including compliance, risk, and tax.
- Identified, designed, and deployed a Python automation that replaced a 20-minute manual compliance process, reducing execution time to seconds and improving data accuracy across all funds.

OTHER EMPLOYMENT

Boat Captain **06/2024 – 09/2024**

Rečna Plovba S.p.

- Led a 40-passenger vessel, making quick, high-stakes decisions under pressure while developing leadership, accountability, and sound judgment essential for fast-paced finance environments.
- Ensured an exceptional passenger experience through clear communication, rapid problem-solving, and consistently going above and beyond, skills directly transferable to client and stakeholder management.

VOLUNTEERING

Red Cross Slovenia **2019 – Present**

- Coordinated biannual Red Cross fundraising and donation drives, leading corporate outreach to secure financial and material contributions from local companies and delivering care packages to over 50 children in need each year, strengthening organizational, communication, and interpersonal skills.
